DOUBLE-SIDED TAPE AND GLUE DOT APPLICATOR

DESCRIPTION
The LVA0010 adhesive tape applicator is a lightweight plastic and metal tool, designed for fast, simple, and one-handed application of transfer tape and glue dots.
It provides a uniform and accurate adhesive layer, avoiding thick glue lines and excessive product release.

KEY FEATURES
- Provides controlled application with trigger pressure
- During adhesive application, the liner rewinds into the applicator
- The transparent cover allows quick and easy tape monitoring
- Covered gears minimise applicator jamming
- Quiet operation, suitable for both left-handed and right-handed use

APPLICATIONS
The double-sided tape and glue dot applicator is suitable for a wide range of applications, including picture framing, POP display bonding, commercial print assembly, fabric sample mounting in sample books, foam attachments, gasket fixing, and general holding and securing during product assembly.
