

GUARROCASAS COATED COVERING MATERIALS

DESCRIPTION

FSC®-certified flexible and durable coated covering materials, offering an excellent alternative to PVC for premium bookbinding and converting applications, suitable for both manual and industrial processing. Manufactured using heavy metal-free raw materials and neutral, water-based compounds with a pH of approximately 7, they are produced without the use of solvents or chlorine, ensuring greater safety and a reduced environmental impact. Their leather, gloss, velvet or textile finishes can be enhanced with a wide range of decorative processes, including screen printing and hot foil stamping.

As the exclusive distributor of this covering material in Italy, Cavallini S.r.l. supplies this product exclusively within the Italian market.

APPLICATIONS

Ideal for hardcover books, diaries, planners, ring binders and menu covers.

TECHNICAL SPECIFICATIONS

Grammage: 125 g/m²

Thickness: 150 microns

Tear Resistance: >90 Cn

Tensile Strength – MD: >10

Tensile Strength – CD*: >5

Roll Size: Roll Height: 140 cm / Roll Length: 100 m

Sheet Size: 70x100 cm

Available Collections: Novaflex Altamira, Novaflex Tasos, Novaflex Duna, Novaflex Granada, Novaflex Lille, Novaflex Nagoya, Novaflex Safi, Novaflex Valencia
